

Protect. Contain. Secure.

Castle® Reinforced Water-activated Tape

Mac Papers and Packaging is pleased to add reinforced water-activated tape to its line of Castle® brand carton sealing tapes, which also includes hot melt and acrylic products.

Castle water-activated tape bonds instantly and securely to virgin and recycled fiber cartons. The superior bond helps ensure protection of contents from the elements, tampering and loss. Carton fiber is irreparably damaged when tape is removed, providing evidence of attempted tampering.

Castle water-activated tape is recommended for use on two-strip sealing lightweight cartons (up to 24 lbs) and lightweight to average weight cartons (up to 40 lbs).

Product Specifications

Item #	Grade	Metric	Per Case	Per Skid
380970	Castle WT	70mm x 500m	6	84
380971	Castle WTx	72mm x 450m	10	63

CASTLE®

Reinforced Water-activated Tape

Features and Benefits

Instant Bond	Bonds instantly to virgin and recycled fiber cartons.
Strength	Reinforced fiberglass provides enhanced seal strength, durability and reliability.
All-weather Use	Unaffected by temperature extremes, hot or cold.
Dust Barrier	Starch-based adhesive absorbs dusts and seals securely, providing an effective dust barrier.
Tamperproof	Bond ensures carton fibers are irreparably damaged when tape is removed, providing evidence of tampering.

Count on Mac Papers and Packaging for All of Your Packaging Needs

In addition to our exclusive line of Castle® brand carton sealing tapes and stretch film, Mac Papers and Packaging stocks an expansive selection of packaging materials from industry-leading producers at our facilities throughout the Southeast. Our packaging specialists take a customer-focused approach in assessing needs and are experts at sourcing materials that meet specific packaging requirements.

We also offer the latest equipment technology for every step of the packaging process, from single-function machines to full-line integrated solutions. In addition to packaging materials and equipment, our experts bring a wealth of services and solutions, from kitting and fulfillment to packaging design and e-commerce. We also have a dedicated team of packaging professionals experienced in the development of programs and single-source packaging solutions for companies with multiple locations or an extended footprint.

For the full line of packaging materials we offer, please browse our online catalog macpapers.com/catalog.
